

Lesson - Learning Resources

Hello. In this presentation I'll explain the learning resources available to you during this course.

Each lesson page has a toolbar with context-sensitive icon sets at the top of the page. These icons lead to resources available during your course.

Use this icon to bring up the reference specific to the lesson

The primary reference for this course is "Wood Handbook Wood as an Engineering Material," published by the United States Department of Agriculture (USDA) Forestry Service. This is a standard reference on woods and wood products for the woodworking industry, and the best part is that it is a free government publication.

This icon is your glossary of terms. Clicking this icon brings up a glossary for reference lookups.

This Go Back icon will take you back to the page you came from.

This icon leads to your woodworker's forum. All students enrolled in this program are automatically enrolled here. These forums can be used for asking for or offering help of your fellow woodworking students or participate in discussions. You also get to post photos of your various woodworking projects in this forum.

The forums are on a different screen than your courses so it's always available once opened.

This icon opens a chatbox for technical support issues.

Technical support is available 24/7 for any issues related to the Learning Management System. Please do not use this to ask about course material.

This icon is your link to your mentor. You have been assigned a mentor, a senior experienced woodworker, who will work with you throughout your time here at e-VOTECH. You are required to let your mentor know the status of your progress through the courses, particularly the online courses, and you may ask for assistance with programs or school issues, as necessary.

You have options for both email contact, and you can also use online chat with your mentor as needed, by appointment.

On some pages this icon brings up bonus learning material you can explore independent of this program. We encourage you to take advantage of this bonus material as it will give you a better appreciation of your chosen career.

This particular icon is not part of the tool bar but does appear on some lessons.

This icon will open a popup window with additional lesson materials.

Your lessons will use combinations of multimedia presentations, PowerPoint presentations, videos, and text. There will be a final quiz upon completion of all lessons.

Thank you
